
Acknowledgments

This report represents the efforts of dozens of individuals who contribute to the Groundwater Performance Assessment Project: planners, schedulers, samplers, laboratory technicians, data management staff, site scientists, editors, text processors, and staff in graphics and duplicating.

John Fruchter and Stuart Luttrell managed the Groundwater Performance Assessment Project and the Groundwater Monitoring Task, respectively. Dot Stewart managed the monumental tasks of sampling and analysis, quality control, and data management.

Most of the graphics for this report were generated by Mickie Chamness and Chris Newbill, who put in many hours to meet our tight schedule. David Lanigan, Joanne Rieger, and Elaine Schneider also assisted with graphics.

Thanks to Bill Deutsch for providing a peer review and to many other reviewers whose comments and suggestions helped us improve this report. As usual, our team of editors and text processors worked tirelessly to produce a clear, polished document in a format that works in paper or electronic form. Thanks to Kathy Neiderhiser for her tremendous dedication, efficiency, and attention to detail; thanks also to Lila Andor, Rose Urbina, and Jennifer Zohn for their invaluable assistance.
