

# Contents

Preface.....	iii
Summary .....	v
Acknowledgments .....	xix
1.0 Introduction.....	1.1
1.0.1 Current Site Mission.....	1.1
1.0.2 Overview of the Hanford Site.....	1.2
1.0.3 Site Management .....	1.4
1.0.4 References .....	1.7
2.0 Environmental Regulatory Compliance.....	2.1
2.1 Agency and Public Involvement.....	2.3
2.1.1 Regulatory Oversight .....	2.3
2.1.2 Hanford Federal Facility Agreement and Consent Order .....	2.3
2.1.3 The Role of Indian Tribes .....	2.4
2.1.4 Hanford Natural Resource Trustee Council .....	2.5
2.1.5 Public Participation.....	2.5
2.1.6 Hanford Advisory Board .....	2.6
2.2 Compliance Status.....	2.7
2.2.1 Hanford Federal Facility Agreement and Consent Order .....	2.7
2.2.1.1 Tri-Party Agreement Milestones.....	2.7
2.2.1.2 Approved Modifications to the Tri-Party Agreement .....	2.9
2.2.2 Environmental Management Systems .....	2.9
2.2.3 Chemical Management Systems.....	2.9
2.2.4 Comprehensive Environmental Response, Compensation, and Liability Act .....	2.11
2.2.5 Emergency Planning and Community Right-To-Know Act .....	2.11
2.2.6 Resource Conservation and Recovery Act .....	2.12
2.2.6.1 Hanford Facility RCRA Permit .....	2.13
2.2.6.2 RCRA/Dangerous Waste Permit Applications and Closure Plans .....	2.13
2.2.6.3 RCRA Groundwater Monitoring .....	2.13
2.2.6.4 RCRA Inspections .....	2.15
2.2.7 Clean Air Act .....	2.16
2.2.8 Clean Water Act.....	2.17
2.2.9 Safe Drinking Water Act .....	2.18
2.2.10 Toxic Substances Control Act.....	2.18
2.2.11 Federal Insecticide, Fungicide, and Rodenticide Act.....	2.19
2.2.12 Endangered Species Act of 1973 .....	2.19
2.2.13 Migratory Bird Treaty Act.....	2.20
2.2.14 Cultural Resources .....	2.20

2.2.15	National Environmental Policy Act.....	2.21
2.2.15.1	Recent Environmental Impact Statements .....	2.21
2.2.15.2	Recent Environmental Assessments .....	2.23
2.2.16	Hanford Site Institutional Controls Plan .....	2.23
2.2.17	Defense Nuclear Facilities Safety Board .....	2.24
2.2.17.1	Defense Nuclear Facilities Safety Board, DOE Richland Operations Office .....	2.24
2.2.17.2	Defense Nuclear Facilities Safety Board, DOE Office of River Protection .....	2.24
2.2.18	Key Provisions of DOE Order 435.1 Ruled Invalid .....	2.25
2.3	Hanford Cleanup Operations .....	2.27
2.3.1	Pollution Prevention Program .....	2.27
2.3.2	Spent Nuclear Fuel Project .....	2.28
2.3.3	Sludge Retrieval and Disposition Project .....	2.28
2.3.4	Central Plateau Remediation Project .....	2.29
2.3.4.1	224-B Plutonium Concentration Facility Decommissioning Project .....	2.29
2.3.4.2	224-T Plutonium Concentration Facility Decommissioning Project .....	2.30
2.3.4.3	Accelerated Deactivation Project.....	2.31
2.3.4.4	327 and 324 Facilities Deactivation Project.....	2.31
2.3.4.5	Equipment Disposition Project .....	2.31
2.3.4.6	233-S Plutonium Concentration Facility Decommissioning Project.....	2.32
2.3.4.7	Central Plateau Surveillance and Maintenance Project .....	2.32
2.3.4.8	Canyon Disposition Initiative .....	2.32
2.3.5	Fast Flux Test Facility.....	2.33
2.3.6	Advanced Reactors Transition Project .....	2.33
2.3.7	Plutonium Finishing Plant .....	2.33
2.3.8	Waste Encapsulation and Storage Facility Project .....	2.34
2.3.9	Office of River Protection .....	2.34
2.3.9.1	Waste Tank Status.....	2.34
2.3.9.2	Waste Tank Closure Acceleration .....	2.35
2.3.9.3	Geophysical Data Logging for Vadose Zone Characterization and Monitoring .....	2.36
2.3.9.4	Monitoring Activities in the Single-Shell Tank Farms.....	2.36
2.3.9.5	Waste Immobilization .....	2.37
2.3.10	Solid Waste Management .....	2.37
2.3.10.1	Central Waste Complex .....	2.37
2.3.10.2	Waste Receiving and Processing Facility.....	2.38
2.3.10.3	Radioactive Mixed Waste Disposal Facility .....	2.38
2.3.10.4	T Plant Complex.....	2.38
2.3.10.5	Mixed Low-Level Waste Treatment Contracts .....	2.39
2.3.10.6	Mixed Low-Level Waste Treatment and Disposal.....	2.39
2.3.10.7	Navy Reactor Compartments .....	2.39
2.3.11	Liquid Effluent Treatment.....	2.40
2.3.11.1	242-A Evaporator.....	2.40
2.3.11.2	Liquid Effluent Retention Facility .....	2.40
2.3.11.3	Effluent Treatment Facility .....	2.41
2.3.11.4	200 Area Treated Effluent Disposal Facility .....	2.41
2.3.11.5	300 Area Treated Effluent Disposal Facility .....	2.41
2.3.12	Environmental Restoration Project .....	2.42
2.3.12.1	Environmental Restoration Disposal Facility.....	2.42
2.3.12.2	Waste Site Remediation .....	2.42
2.3.12.3	Facility Decommissioning Project .....	2.43

2.3.12.4	Surveillance/Maintenance and Transition Project.....	2.43
2.3.12.5	Revegetation and Mitigation Planning .....	2.43
2.3.13	Groundwater Remediation Project.....	2.45
2.3.13.1	Groundwater Remediation .....	2.45
2.3.13.2	Soil Zone Remediation .....	2.47
2.3.13.3	Waste Site Investigations – Operable Units.....	2.47
2.3.13.4	Assessment of Hanford Impact .....	2.51
2.3.13.5	Remediation and Closure Science Project .....	2.52
2.3.13.6	Integration Management: Strategic Planning, Public Involvement, and Databases .....	2.53
2.3.14	Hanford Tank Waste Science and Technology.....	2.54
2.3.14.1	Safe Tank Waste Storage .....	2.54
2.3.14.2	Double-Shell Tank Thermal and Seismic Analysis.....	2.54
2.3.14.3	Tank Waste Retrieval.....	2.55
2.3.14.4	Tank Waste Treatment Technologies .....	2.55
2.3.14.5	Accelerating Tank Closure .....	2.55
2.3.14.6	Radiological Clearance for Release of Selected Hanford Reach National Monument Lands .....	2.56
2.4	Environmental Occurrences.....	2.57
2.4.1	Emergency Occurrences.....	2.57
2.4.2	Unusual Occurrences .....	2.57
2.4.3	Off-Normal Occurrences.....	2.57
2.5	Waste Management .....	2.59
2.6	References.....	2.63
3.0	Facility-Related Monitoring.....	3.1
3.1	Facility Effluent and Emissions Monitoring .....	3.3
3.1.1	Radioactive Airborne Emissions.....	3.4
3.1.2	Non-Radioactive Airborne Emissions .....	3.5
3.1.3	Radioactive Liquid Effluent .....	3.6
3.1.4	Non-Radioactive Hazardous Materials in Liquid Effluent.....	3.7
3.1.5	CERCLA and Washington Administrative Code Reportable Releases to the Environment .....	3.7
3.2	Near-Facility Environmental Monitoring .....	3.9
3.2.1	Air Monitoring.....	3.9
3.2.2	Spring Water Monitoring.....	3.15
3.2.3	Radiological Surveys of Surface Contamination .....	3.15
3.2.4	Soil and Vegetation Monitoring .....	3.16
3.2.4.1	Radiological Results for Soil Samples.....	3.18
3.2.4.2	Radiological Results for Vegetation Samples.....	3.18
3.2.5	External Radiation .....	3.22
3.2.6	Investigative Sampling.....	3.29
3.3	References.....	3.33

4.0	Environmental Surveillance Information .....	4.1
4.0.1	Surface Environmental Surveillance .....	4.1
4.0.1.1	Surveillance Objectives .....	4.1
4.0.1.2	Surveillance Design .....	4.2
4.1	Air Surveillance.....	4.7
4.1.1	Collection of Air Samples and Analytes Tested.....	4.7
4.1.2	Radiological Results for Air Samples.....	4.10
4.1.3	Monitoring of Particulate Matter .....	4.15
4.2	Surface Water and Sediment Surveillance.....	4.19
4.2.1	Columbia River Water .....	4.19
4.2.1.1	Collection of River-Water Samples and Analytes of Interest .....	4.23
4.2.1.2	Radiological Results for River-Water Samples .....	4.24
4.2.1.3	Chemical and Physical Results for River-Water Samples .....	4.29
4.2.2	Riverbank Spring Water .....	4.30
4.2.2.1	Collection of Water Samples from Riverbank Springs and Analytes of Interest.....	4.32
4.2.2.2	Radiological Results for Water Samples from Riverbank Springs.....	4.32
4.2.2.3	Chemical Results for Water Samples from Riverbank Springs .....	4.34
4.2.3	Columbia River and Riverbank Springs Sediment.....	4.37
4.2.3.1	Collection of Sediment Samples and Analytes of Interest .....	4.37
4.2.3.2	Radiological Results for Sediment Samples from Columbia River .....	4.38
4.2.3.3	Radiological Results for Sediment Samples from Riverbank Springs .....	4.38
4.2.3.4	Chemical Results for Sediment Samples from the Columbia River and Riverbank Springs.....	4.38
4.2.4	Onsite Pond Water and Sediment .....	4.41
4.2.4.1	Collection of Pond Water and Sediment Samples and Analytes of Interest .....	4.41
4.2.4.2	Radiological Results for Pond Water and Sediment Samples .....	4.41
4.2.5	Irrigation Water.....	4.42
4.3	Radiological Surveillance of Hanford Site Drinking Water .....	4.43
4.3.1	Hanford Site Drinking Water Systems .....	4.43
4.3.2	Hanford Site Drinking Water Supply Facilities.....	4.43
4.3.3	Collection of Drinking Water Samples and Analytes of Interest .....	4.44
4.3.4	Radiological Results for Hanford Site Drinking Water Samples.....	4.45
4.4	Food and Farm Product Surveillance .....	4.49
4.4.1	Milk Sample Results and Analytes of Interest.....	4.51
4.4.2	Vegetable Sample Results and Analytes of Interest .....	4.52
4.4.3	Fruit Sample Results and Analytes of Interest.....	4.52
4.4.4	Wine Sample Results and Analytes of Interest .....	4.53
4.4.5	Other Farm Product Sample Results and Analytes of Interest.....	4.53
4.5	Fish and Wildlife Surveillance .....	4.55
4.5.1	Fish and Wildlife Sampling.....	4.57
4.5.1.1	Fish Sample Results and Analytes of Interest.....	4.57
4.5.1.2	Goose Sample Results and Analytes of Interest .....	4.57
4.5.1.3	Rabbit Sample Results and Analytes of Interest .....	4.58
4.5.2	Sentinel Organisms .....	4.60
4.5.2.1	Asiatic Clam Sample Results and Analytes of Interest .....	4.61
4.5.2.2	Crayfish Sample Results and Analytes of Interest.....	4.61

4.5.2.3	Sculpin Sample Results and Analytes of Interest.....	4.62
4.5.3	Monitoring DDT, DDD, and DDE in the Vicinity of the Horseshoe Landfill.....	4.62
4.5.3.1	Background.....	4.62
4.5.3.2	Sample Collections.....	4.63
4.5.3.3	Sample Analysis Results.....	4.65
4.6	External Radiation Surveillance.....	4.67
4.6.1	External Radiation Measurements.....	4.67
4.6.2	Radiological Survey Results.....	4.73
4.6.3	Pressurized Ionization Chamber Results.....	4.74
4.7	References.....	4.77
5.0	Potential Radiological Doses from 2003 Hanford Site Operations.....	5.1
5.0.1	Maximally Exposed Individual Dose.....	5.2
5.0.2	Collective Dose.....	5.4
5.0.3	Compliance with Clean Air Act Standards.....	5.5
5.0.4	Special Case Dose Estimates.....	5.7
5.0.4.1	Maximum “Boundary” Dose Rate.....	5.7
5.0.4.2	Sportsman Dose.....	5.8
5.0.4.3	Onsite Drinking Water.....	5.8
5.0.4.4	Inhalation Doses for Entire Year.....	5.9
5.0.5	Doses from Non-DOE Sources.....	5.9
5.0.6	Dose Rates to Animals.....	5.9
5.0.7	Radiological Dose in Perspective.....	5.10
5.0.8	References.....	5.12
6.0	Groundwater and Vadose Zone.....	6.1
6.0.1	Highlights and Emerging Issues.....	6.1
6.0.1.1	Groundwater Monitoring Capabilities.....	6.1
6.0.1.2	Tracking Groundwater Contamination.....	6.2
6.0.1.3	Groundwater Operable Units.....	6.3
6.0.1.4	Waste Facility Monitoring.....	6.3
6.0.1.5	Groundwater Modeling.....	6.3
6.0.2	Groundwater Flow and Movement.....	6.5
6.0.3	Groundwater Monitoring and Remediation.....	6.8
6.0.3.1	Overview.....	6.8
6.0.3.2	100-BC-5 Operable Unit.....	6.8
6.0.3.3	100-KR-4 Operable Unit.....	6.12
6.0.3.4	100-NR-2 Operable Unit.....	6.12
6.0.3.5	100-HR-3-D Operable Unit.....	6.13
6.0.3.6	100-HR-3-H Operable Unit.....	6.15
6.0.3.7	100-FR-3 Operable Unit.....	6.16
6.0.3.8	200-ZP-1 Operable Unit.....	6.16
6.0.3.9	200-UP-1 Operable Unit.....	6.17
6.0.3.10	200-BP-5 Operable Unit.....	6.19
6.0.3.11	200-PO-1 Operable Unit.....	6.19
6.0.3.12	300-FF-5 Operable Unit.....	6.21
6.0.3.13	1100-EM-1 Operable Unit.....	6.22
6.0.3.14	Confined Aquifers.....	6.22

6.0.4	Well Installation, Maintenance, and Decommissioning .....	6.23
6.0.5	Modeling .....	6.23
6.0.6	Vadose Zone .....	6.23
6.0.6.1	Geophysical Logging in Cased Boreholes at Hanford .....	6.23
6.0.6.2	Vadose Zone Characterization Results .....	6.25
6.0.6.3	Monitoring Activities in the Single-Shell Tank Farms.....	6.26
6.0.7	References .....	6.32
7.0	Other Hanford Site Environmental Programs .....	7.1
7.1	Climate and Meteorology.....	7.3
7.1.1	Historical Climatological Information .....	7.5
7.1.2	Results of 2003 Monitoring.....	7.5
7.2	Ecological Monitoring and Compliance .....	7.7
7.2.1	Chinook Salmon .....	7.7
7.2.2	Mule Deer.....	7.8
7.2.3	Breeding Bird Roadside Surveys .....	7.11
7.2.4	Vegetation Survey and Monitoring .....	7.11
7.2.5	Ecological Sampling and Impact Evaluations.....	7.14
7.2.6	Ecological Compliance .....	7.18
7.2.6.1	Bald Eagles .....	7.18
7.2.6.2	Steelhead.....	7.19
7.2.6.3	Sage Sparrow Habitat Suitability Index .....	7.19
7.3	Cultural Resources.....	7.23
7.3.1	Monitoring Cultural Resources.....	7.23
7.3.1.1	Locke Island Erosion .....	7.23
7.3.1.2	Archaeological Sites .....	7.24
7.3.1.3	Historic Buildings.....	7.25
7.3.1.4	Cemeteries.....	7.25
7.3.2	Native American Involvement.....	7.25
7.3.3	Public Involvement.....	7.26
7.3.4	Cultural Resources Reviews .....	7.26
7.3.5	Evaluation of Historic Buildings and Structures.....	7.28
7.3.6	Education and Research.....	7.30
7.4	Community Involvement in Environmental Surveillance.....	7.31
7.5	Biological Control Program.....	7.33
7.5.1	Biological Control During 2003 .....	7.34
7.5.2	Noxious Weed Control Program.....	7.34
7.6	References.....	7.39
8.0	Quality Assurance .....	8.1
8.0.1	Environmental Surveillance and Groundwater Monitoring .....	8.1
8.0.1.1	Project Management Quality Assurance .....	8.1
8.0.1.2	Sample Collection Quality Assurance/Quality Control .....	8.1
8.0.1.3	Analytical Results Quality Assurance/Quality Control .....	8.2

8.0.1.4	DOE and EPA Comparison Studies.....	8.3
8.0.1.5	Pacific Northwest National Laboratory Evaluations .....	8.3
8.0.1.6	Quality Assurance Task Force Results .....	8.5
8.0.1.7	Laboratory Internal Quality Assurance Programs .....	8.5
8.0.1.8	Media Audits and Comparisons.....	8.6
8.0.2	Effluent Monitoring and Near-Facility Environmental Monitoring .....	8.7
8.0.2.1	Sample Collection Quality Assurance.....	8.8
8.0.2.2	Analytical Results Quality Assurance .....	8.8
8.0.3	References .....	8.11

Appendix A - Helpful Information

Appendix B - Glossary

Appendix C - Additional Monitoring Results for 2003

Appendix D - Standards and Permits

Appendix E - Dose Calculations

Appendix F - Radionuclides Measured by Gamma Spectroscopy

Appendix G - Threatened and Endangered Species

## Figures

S.1	Hanford Site Groundwater Pump-and-Treat and Soil-Vapor Extraction Systems .....	xiv
S.2	National Annual Average Radiological Doses from Various Sources .....	xv
1.0.1	The Hanford Site and Surrounding Area .....	1.3
1.0.2	Management Units on the Hanford Reach National Monument .....	1.5
3.1.1	Liquid Releases of Selected Radionuclides from the Hanford Site, 1992 through 2003 .....	3.3
3.1.2	Airborne Releases of Selected Radionuclides from the Hanford Site, 1992 through 2003 .....	3.4
3.2.1	Average Concentrations of Selected Radionuclides in Near-Facility Air Samples Collected on the Hanford Site Compared to Those Collected in Distant Communities, 1998 through 2003.....	3.12
3.2.2	Average Concentrations of Selected Radionuclides in Near-Facility Soil Samples Collected on the Hanford Site Compared to Those Collected in Distant Communities, 1998 through 2003 .....	3.19
3.2.3	Average Concentrations of Selected Radionuclides in Near-Facility Vegetation Samples Collected on the Hanford Site Compared to Those Collected in Distant Communities, 1998 through 2003 .....	3.23
3.2.4	Annual Average Thermoluminescent Dosimeter Results in the 100-N Area on the Hanford Site, 1987 through 2003 .....	3.28
3.2.5	Average Dose Rates at N Springs on the Hanford Site, 1987 through 2003 .....	3.28
3.2.6	Annual Average Thermoluminescent Dosimeter Results in the 200 Areas on the Hanford Site, 1987 through 2003 .....	3.29

3.2.7	Annual Average Thermoluminescent Dosimeter Results in the 300/400 Areas of the Hanford Site and at the 300 Area Treated Effluent Disposal Facility, 1991 through 2003 .....	3.30
4.0.1	Potential Pathways for Human and Biota Exposure to Effluent and Emissions from the DOE's Hanford Site .....	4.4
4.1.1	Pacific Northwest National Laboratory Air Sampling Locations On and Around the Hanford Site During 2003 .....	4.8
4.1.2	Gross Alpha and Gross Beta Concentrations in Airborne Particulate Samples Collected at Onsite and Distant Locations from the Hanford Site During 2003 .....	4.11
4.1.3	Annual Average Tritium Concentrations Measured in Air at 300 Area, Perimeter, and Distant Locations, 1998 through 2003 .....	4.14
4.1.4	Iodine-129 Concentrations in Air at the Hanford Site, 1998 through 2003.....	4.14
4.1.5	Annual Average Plutonium-239/240 Concentrations in Air at the Hanford Site, 1998 through 2003 .....	4.15
4.1.6	Daily Average PM <sub>10</sub> Particle Concentrations at the Hanford Meteorology Station, 2003.....	4.16
4.1.7	Daily Average PM <sub>2.5</sub> Concentrations at the Hanford Meteorology Station, 2003.....	4.17
4.2.1	Hanford Site Environmental Surveillance Project Sampling Locations for Water and Sediment, 2003 .....	4.20
4.2.2	Mean, Maximum, and Minimum Columbia River Flow Rates at Priest Rapids Dam, Washington, 2003 .....	4.22
4.2.3	Annual Average Gross Alpha Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1998 through 2003.....	4.25
4.2.4	Annual Average Gross Beta Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1998 through 2003.....	4.25
4.2.5	Annual Average Tritium Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1998 through 2003.....	4.25
4.2.6	Annual Average Strontium-90 Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1998 through 2003.....	4.26
4.2.7	Annual Average Total Uranium Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1998 through 2003.....	4.26
4.2.8	Annual Average Iodine-129 Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1998 through 2003.....	4.27
4.2.9	Tritium Concentrations in Cross-River Transect Water Samples from the Hanford Reach of the Columbia River, September 2003 .....	4.28
4.2.10	Tritium Concentrations in Columbia River Water Collected at the Hanford Site Shoreline, 2003 .....	4.29
4.2.11	U.S. Geological Survey Water Quality Measurements for the Columbia River Upstream and Downstream of the Hanford Site, 1998 through 2003 .....	4.31

4.2.12	Concentrations of Selected Radionuclides in Water from Columbia River Riverbank Springs Near the 300 Area of the Hanford Site, 1998 through 2003 .....	4.33
4.2.13	Concentrations of Selected Radionuclides in Columbia River Riverbank Spring Water at the Hanford Town Site, 1998 through 2003 .....	4.35
4.2.14	Median, Maximum, and Minimum Concentrations of Selected Radionuclides Measured in Columbia River and Snake River Sediment, 1998 through 2003.....	4.39
4.2.15	Median, Maximum, and Minimum Concentrations of Selected Metals Measured in Columbia River Sediment, 2003 .....	4.40
4.2.16	Average Acid Volatile Sulfide/Simultaneously Extracted Zinc and Sum of Simultaneously Extracted Metals in Columbia River Sediment, 1997 through 2002 Compared to 2003 Data .....	4.40
4.2.17	Median, Maximum, and Minimum Gross Beta and Tritium Concentrations in Water Samples from the Fast Flux Test Facility Pond on the Hanford Site, 1998 through 2003.....	4.42
4.2.18	Median, Maximum, and Minimum Concentrations of Tritium in Water Samples from West Lake on the Hanford Site, 1998 through 2003.....	4.42
4.3.1	Hanford Site Drinking Water Supply Facilities, 2003.....	4.44
4.3.2	Tritium Concentrations in Drinking Water from Three Wells in the Hanford Site's 400 Area, 1985 through 2003 .....	4.47
4.4.1	Food and Farm Product Sampling Locations, 2003.....	4.50
4.4.2	Median, Maximum, and Minimum Strontium-90 Concentrations in Milk Samples Collected Near the Hanford Site, 1997 through 2003.....	4.51
4.4.3	Median, Maximum, and Minimum Iodine-129 Concentrations in Milk Samples Collected Near the Hanford Site, 1997 through 2003 .....	4.52
4.4.4	Median, Maximum, and Minimum Tritium Concentrations in Milk Samples Collected Near the Hanford Site, 1998 through 2002 .....	4.52
4.5.1	Fish and Wildlife Sampling Locations On and Around the Hanford Site, 2003.....	4.56
4.5.2	Median and Maximum Strontium-90 Concentrations in Whitefish Carcasses, 2003 Compared to Previous Years.....	4.58
4.5.3	Median and Maximum Strontium-90 Concentrations in Hanford Site and Background Canada Goose Bone Samples, 2003 Compared to Previous Years .....	4.59
4.5.4	Median and Maximum Strontium-90 Concentrations in Hanford Site and Background Rabbit Samples, 2003 Compared to Previous Years .....	4.60
4.5.5	Strontium-90 Levels in Shells of Asiatic Clams Collected Near the Low Water Line Along the Benton County Shoreline of the Hanford Reach of the Columbia River, 2002-2003 .....	4.62
4.5.6	Sampling Locations for Soil, Vegetation, Invertebrates, Plants, Small Mammals, and Birds Near the Horseshoe Landfill, 2003 .....	4.64

4.5.7	Total DDT/DDD/DDE in Samples Near the Horseshoe Landfill and at a Nearby Reference Location, 2003 .....	4.65
4.6.1	Surface Environmental Surveillance Project Thermoluminescent Dosimeter Locations on the Hanford Site, 2003 .....	4.68
4.6.2	Community, Distant, and Perimeter Thermoluminescent Dosimeter Locations Around the Hanford Site, 2003 .....	4.69
4.6.3	Hanford Site Surface Environmental Surveillance Project Thermoluminescent Dosimeter Locations Along the Columbia River, 2003 .....	4.70
4.6.4	Annual Average Dose Rates at Onsite, Perimeter, and Distant Locations of the Hanford Site, 1998 through 2003 .....	4.73
4.6.5	Maximum and Average External Dose Rates Measured Along the Columbia River at 100-N Area Shoreline Locations on the Hanford Site, 1998 through 2003 .....	4.73
5.0.1	Locations Important to Dose Calculations at the Hanford Site .....	5.3
5.0.2	Calculated Dose to the Hypothetical, Maximally Exposed Individual at the Hanford Site, 1999 through 2003 .....	5.4
5.0.3	Collective Dose to the Population within 80 Kilometers of the Hanford Site, 1999 through 2003 .....	5.5
5.0.4	National Annual Average Radiological Doses from Various Sources .....	5.6
6.0.1	Groundwater Interest Areas on the Hanford Site in 2003 .....	6.4
6.0.2	Pump-and-Treat, In Situ Remediation, and Soil-Gas Extraction Systems Operating on the Hanford Site in 2003 .....	6.5
6.0.3	Locations of the RCRA Groundwater Monitoring Waste Management Areas on the Hanford Site During 2003 .....	6.6
6.0.4	Water-Table Elevations and Inferred Flow Direction for the Unconfined Aquifer at the Hanford Site, March 2003 .....	6.7
6.0.5	Distribution of Major Radionuclides in Hanford Site Groundwater at Concentrations Above Drinking Water Standards During 2003 .....	6.9
6.0.6	Distribution of Major Hazardous Chemicals in Hanford Site Groundwater at Concentrations Above Drinking Water Standards During 2003 .....	6.10
6.0.7	The Effect of Pump-and-Treat System on Groundwater Chromium Concentrations in the Hanford Site's 100-K Area, 1994 Compared to 2003 .....	6.13
6.0.8	Strontium-90 Concentrations in the Hanford Site's 100-N Area Groundwater, 1990 Compared to 2003 .....	6.14
6.0.9	Chromium Concentrations in Hanford Site's Central 100-D Area Groundwater, 1999 Compared to 2003 .....	6.14
6.0.10	Influence of Pump-and-Treat Remediation and Natural Processes on Chromium Concentrations in Groundwater Beneath the Hanford Site's 100-H Area, 1994 Compared to 2003 .....	6.15

6.0.11	Influence of a Pump-and-Treat System on Carbon Tetrachloride Concentrations Beneath the Hanford Site's 200-West Area, 1990 Compared to 2003 .....	6.16
6.0.12	Impact of a Pump-and-Treat System at the Hanford Site's 200-UP-1 Operable Unit on Technetium-99 Concentrations in Groundwater, 1995 Compared to 2003 .....	6.17
6.0.13	Influence of a Pump-and-Treat System at the Hanford Site's 200-UP-1 Operable Unit on Uranium Concentrations in Groundwater, 1995 Compared to 2003 .....	6.18
6.0.14	Tritium Concentrations in Hanford Site Groundwater, 1980 Compared to 2003 .....	6.20
6.0.15	Cobalt-60 Vadose Zone Contamination in the B-BX-BY Waste Management Area and Vicinity .....	6.27
6.0.16	Uranium-238 Vadose Zone Contamination in the B-BX-BY Waste Management Area and Vicinity .....	6.28
7.1.1	Hanford Meteorological Monitoring Network Wind Roses, 2003 .....	7.4
7.2.1	Number of Salmon Redds in the Hanford Reach of the Columbia River .....	7.8
7.2.2	Major Fall Chinook Spawning Areas in the Hanford Reach of the Columbia River.....	7.9
7.2.3	Mule Deer Survival Estimates on the Hanford Site from 1994 through 2003.....	7.10
7.2.4	Percent of Male Mule Deer on the Hanford Site from 1994 through 2003 Showing Signs of Testicular Atrophy .....	7.10
7.2.5	Roadside Bird Survey Routes on the Hanford Site.....	7.12
7.2.6	Species Richness During the Breeding Season Along Four Roadside Routes on the Hanford Site, 1988 through 2003 .....	7.13
7.2.7	Abundance of Western Meadowlarks Along Four Roadside Survey Routes on the Hanford Site, 1988 through 2003 .....	7.13
7.2.8	Abundance of Horned Larks Along Four Roadside Survey Routes on the Hanford Site, 1988 through 2003 .....	7.14
7.2.9	Riparian Vegetation Cover Types Mapped Along the Hanford Reach from Above Vernita to Just Beyond the 300 Area .....	7.17
7.2.10	Average Vegetation Cover for Occupied Versus Unoccupied Sage Sparrow Territories on the Hanford Site in 2003.....	7.20
7.2.11	Total Shrub Area for Occupied Sage Sparrow Territories on the Hanford Site in 2003 .....	7.21
7.3.1	Measured Erosion at the Locke Island Erosion Transects Near the Hanford Site, 2003 .....	7.24
7.3.2	Total Measured Erosion at the Locke Island Erosion Transects Near the Hanford Site Between November 1995 and September 2003 .....	7.25
7.3.3	Cultural Resources Reviews Requested Each Calendar Year at the Hanford Site .....	7.27
7.3.4	Former and Current Buildings and Structures at the Hanford Site Documented with a Washington State Historic Property Inventory Form .....	7.29

7.4.1	Community Members See Environmental Surveillance in Action at a Community-Operated Environmental Surveillance Station in Richland, Washington .....	7.31
7.5.1	Major Populations of Noxious Weeds, 2003.....	7.35
A.1	A Graphical Representation of Maximum, Median, and Minimum Values.....	A.6
A.2	Data Plotted Using a Linear Scale .....	A.6
A.3	Data Plotted Using a Logarithmic Scale.....	A.6
A.4	Data with Error Bars Plotted Using a Linear Scale .....	A.7

## Tables

S.1	Compliance with Federal Acts at the Hanford Site in 2003.....	vi
S.2	Hanford Waste Summary, 2003 .....	vii
S.3	Hanford Site Monitoring Results for 2003 .....	viii
S.4	Summary of Groundwater Pump-and-Treat Systems and a Vadose Zone Soil-Vapor Extraction System.....	xiii
2.2.1	Hanford Site Tri-Party Agreement Change Requests Approved During 2003.....	2.10
2.2.2	Emergency Planning and Community Right-To-Know Act Compliance Reporting at the Hanford Site During 2003 .....	2.12
2.2.3	Average Quantity of Ten Hazardous Chemicals Stored on the Hanford Site, 2003.....	2.13
2.2.4	Regulated Facilities and Waste Management Areas on the Hanford Site Requiring Groundwater Monitoring in 2003.....	2.14
2.3.1	Radioactive Contaminants Evaluated in the Composite Analysis and Hazardous Chemical Contaminants Planned for Future Analyses.....	2.52
2.5.1	Quantities of Solid Waste Generated on the Hanford Site, 1998 through 2003.....	2.60
2.5.2	Quantities of Solid Waste Received on the Hanford Site from Offsite Sources, 1998 through 2003 .....	2.60
2.5.3	Quantities of Dangerous Waste Shipped Off the Hanford Site, 1998 through 2003.....	2.60
2.5.4	Radioactive Solid Waste Stored or Disposed of on the Hanford Site, 2003 .....	2.61
2.5.5	Quantities of Liquid Waste Generated and Stored Within the Tank Farm System on the Hanford Site During 2003 and During Each of the Previous 5 Years.....	2.62
3.1.1	Radionuclides Discharged to the Atmosphere at the Hanford Site, 2003 .....	3.5
3.1.2	Non-Radioactive Emissions Discharged to the Atmosphere at the Hanford Site, 2003 .....	3.6
3.1.3	Radionuclides in 200 Area Liquid Effluent Discharged to the State-Approved Land Disposal Site at the Hanford Site, 2003 .....	3.6

3.1.4	Radionuclides in Liquid Effluent from the Hanford Site's 100 Areas Discharged to the Columbia River, 2003 .....	3.6
3.2.1	Hanford Site Near-Facility Routine Environmental Monitoring Samples and Locations, 2003 .....	3.10
3.2.2	Hanford Site Near-Facility Air Sampling Locations and Analyses, 2003.....	3.11
3.2.3	Annual Average and Maximum Concentrations of Radionuclides in Near-Facility Air Samples Collected on the Hanford Site, 2003.....	3.13
3.2.4	Radionuclide Concentrations in Samples Collected from Wells Along the Columbia River Shoreline in the 100-N Area of the Hanford Site, 2003.....	3.15
3.2.5	Status of Outdoor Contamination at the Hanford Site, 2003 .....	3.16
3.2.6	Status Change of Posted Contaminated Areas on the Hanford Site, 2003 .....	3.17
3.2.7	Average Radionuclide Concentrations Detected in Surface Soil Samples Collected from the 100-N Area on the Hanford Site, 1998 through 2003 .....	3.20
3.2.8	Concentrations of Selected Radionuclides in a Surface Soil Sample Collected from the 100-N Area on the Hanford Site, 2003 .....	3.20
3.2.9	Average Radionuclide Concentrations Detected in Surface Soil Samples Collected from the 200/600 Areas on the Hanford Site, 1998 through 2003 .....	3.20
3.2.10	Concentrations of Selected Radionuclides in Surface Soil Samples Collected from the 200/600 Areas on the Hanford Site, 2003 .....	3.21
3.2.11	Average Radionuclide Concentrations Detected in Surface Soil Samples Collected from the 300/400 Areas on the Hanford Site, 1998 through 2003 .....	3.21
3.2.12	Concentrations of Selected Radionuclides in Surface Soil Samples Collected from the 300/400 Areas on the Hanford Site, 2003 .....	3.21
3.2.13	Radionuclide Concentrations in Soil Samples Collected for the Environmental Restoration Contractor on the Hanford Site, 2003 .....	3.22
3.2.14	Average Radionuclide Concentrations Detected in Vegetation Samples Collected from the 100-N Area on the Hanford Site, 1998 through 2003 .....	3.24
3.2.15	Concentrations of Selected Radionuclides in Vegetation Samples Collected from the 100-N Area on the Hanford Site, 2003.....	3.24
3.2.16	Average Radionuclide Concentrations Detected in Vegetation Samples Collected from the 200/600 Areas on the Hanford Site, 1998 through 2003 .....	3.24
3.2.17	Concentrations of Selected Radionuclides in Vegetation Samples Collected from the 200/600 Areas on the Hanford Site, 2003 .....	3.25
3.2.18	Average Radionuclide Concentrations Detected in Vegetation Samples Collected from the 300/400 Areas on the Hanford Site, 1998 through 2003 .....	3.25
3.2.19	Concentrations of Selected Radionuclides in Vegetation Samples Collected from the 300/400 Areas on the Hanford Site, 2003 .....	3.25

3.2.20	Near-Facility Thermoluminescent Dosimeter Results at the Hanford Site for 2002 and 2003 and Comparative Offsite Location Results for 1998 through 2003.....	3.26
3.2.21	Investigative Samples Collected on the Hanford Site, 1994 through 2003 .....	3.30
4.0.1	Routine Environmental Surveillance Sample Types and Measurement Locations On and Around the Hanford Site in Washington State, 2003 .....	4.5
4.0.2	Samples Collected by the Hanford Site Surface Environmental Surveillance Project, 2003 .....	4.5
4.1.1	Pacific Northwest National Laboratory Air Sampling Locations On and Around the Hanford Site, Sample Composite Groups, and Analytes, 2003 .....	4.9
4.1.2	Airborne Radionuclide Concentrations in the Environs of the Hanford Site, 2003 Compared to Previous Years.....	4.12
4.1.3	Daily Average PM <sub>10</sub> Concentrations and Corresponding Wind Speed Data for Several Days Before and After an Exceedance of the 150 µg/m <sup>3</sup> PM <sub>10</sub> Threshold.....	4.17
4.2.1	Surface Water Surveillance On and Near the Hanford Site, 2003 .....	4.21
4.2.2	Columbia River Sediment Surveillance from Priest Rapids Dam to McNary Dam, 2003 .....	4.22
4.2.3	Selected Radionuclide Concentrations in 100-N Area Riverbank Spring Water at the Hanford Site, 1998 through 2003 .....	4.34
4.2.4	Concentration Ranges for Selected Chemicals in Water from Columbia River Springs at the Hanford Site, 1999 through 2003.....	4.36
4.3.1	Concentrations of Selected Radiological Constituents in Hanford Site Drinking Water, 2003.....	4.45
4.3.2	Tritium Concentrations in Hanford Site 400 Area Drinking Water Wells, 2003 .....	4.47
4.4.1	Sampling Locations, Frequencies, and Analyses Performed for Food and Farm Products Routinely Sampled Around the Hanford Site, 2003 .....	4.50
4.5.1	Locations, Species, and Contaminants Sampled for Fish and Wildlife, 2003 .....	4.57
4.5.2	Trace Metals and Radionuclides in Columbia River Asiatic Clams, Hanford Reach Samples Compared to Reference Area Samples Collected Upstream of the Vernita Bridge, 2001-2003 .....	4.62
4.6.1	Dose Rates Measured by Thermoluminescent Dosimeters on the Hanford Site, 2003 Compared to Previous 5 Years.....	4.71
4.6.2	Dose Rates Measured by Thermoluminescent Dosimeters at Perimeter and Offsite Locations Around the Hanford Site, 2003 Compared to Previous 5 Years .....	4.72
4.6.3	Dose Rates Measured by Thermoluminescent Dosimeters Along the Shoreline of the Hanford Reach of the Columbia River, 2003 Compared to Previous 5 Years .....	4.72
4.6.4	Exposure Rates Measured by Pressurized Ionization Chambers at Four Locations Around the Hanford Site, 2003 .....	4.75
4.6.5	Quarterly Average Exposure Rates Measured by Thermoluminescent Dosimeters at Four Locations Around the Hanford Site, 2003 .....	4.76

5.0.1	Dose to the Hypothetical, Maximally Exposed Individual Residing at Sagemoor from 2003 Hanford Site Operations .....	5.4
5.0.2	Collective Dose to the Population from 2003 Hanford Site Operations .....	5.5
5.0.3	Comparison of Doses to the Public from Hanford Site Effluent to Federal Standards and Natural Background Levels .....	5.6
5.0.4	Calculated Inhalation Doses On and Around the Hanford Site Based on 2003 Air Surveillance Data .....	5.9
5.0.5	Results of RESRAD-BIOTA Screenings at the Hanford Site, 2003 .....	5.10
5.0.6	Estimated Risk from Various Activities and Exposure .....	5.11
5.0.7	Activities Comparable in Risk to the 0.02-mrem Dose Calculated for the Hanford Site's 2003 Maximally Exposed Individual.....	5.12
6.0.1	Summary of Hanford Site Groundwater Performance Assessment Project by Groundwater Interest Area, 2003 .....	6.2
6.0.2	Summary of Hanford Site Groundwater Performance Assessment Project by Monitoring Purpose, 2003 .....	6.2
6.0.3	Areas of Contaminant Plumes on the Hanford Site at Levels Above Drinking Water Standards, 2003 .....	6.11
6.0.4	Summary of Maximum Contaminant Concentrations in Hanford Site Groundwater by Groundwater Interest Area, 2003 .....	6.11
6.0.5	Summary of Maximum Contaminant Concentrations in Hanford Site Groundwater by Monitoring Purpose, 2003 .....	6.12
6.0.6	Naturally Occurring Radionuclides .....	6.24
6.0.7	Manmade Gamma-Emitting Radionuclides .....	6.24
6.0.8	Summary of Tank Farm Monitoring Results.....	6.30
7.1.1	Monthly and Annual Climatological Data from the Hanford Meteorology Station, 2003.....	7.6
7.2.1	Current Mapped Extent of Riparian Vegetation Cover Types Along the Hanford Shoreline of the Columbia River.....	7.15
7.2.2	Ecological Reviews Performed on the Hanford Site, 1997 through 2003.....	7.18
8.0.1	Summary of Field Replicate Results for the Surface Environmental Surveillance Project at Hanford, 2003 .....	8.2
8.0.2	Summary of Laboratory Performance on DOE Quality Assessment Program Samples for the Surface Environmental Surveillance Project at Hanford, 2003 .....	8.4
8.0.3	Summary of Laboratory Performance on Hanford Site Surface Environmental Surveillance Project Samples by the Environmental Resource Associates Proficiency Testing Program, 2003 .....	8.4
8.0.4	Summary of Hanford Site Surface Environmental Surveillance Project Blind Spiked Determinations, 2003 .....	8.5

8.0.5	Comparison of Co-Sampling Results for Samples Collected Near the Hanford Site, 2003 .....	8.7
8.0.6	Comparison of Pacific Northwest National Laboratory Thermoluminescent Dosimeter Results with Known Exposure, 2003 .....	8.8
8.0.7	Hanford Site Laboratories Used by Site Contractors and Types of Effluent Monitoring and Near-Facility Monitoring Samples Analyzed, 2003.....	8.9
8.0.8	The Hanford Site's Waste Sampling and Characterization Facility Performance on DOE Quality Assessment Program Samples, 2003 .....	8.10
8.0.9	The Hanford Site's 222-S Analytical Laboratory Performance on DOE Quality Assessment Program Samples, 2003.....	8.10
8.0.10	The Hanford Site's 222-S Analytical Laboratory Performance on EPA Laboratory Water Pollution Inorganic and Organic Studies, 2003 .....	8.10
A.1	Names and Symbols for Units of Measure .....	A.2
A.2	Conversion Table .....	A.2
A.3	Names and Symbols for Units of Radioactivity.....	A.3
A.4	Conversions for Radioactivity Units .....	A.3
A.5	Conversions for Radiological Dose Units.....	A.3
A.6	Names and Symbols for Units of Radiation Dose or Exposure.....	A.3
A.7	Radionuclides and Their Half-Lives.....	A.4
A.8	Elemental and Chemical Constituent Nomenclature.....	A.5
C.1	Radionuclide Concentrations in Columbia River Water Samples Collected at Priest Rapids Dam, Washington, 2003 Compared to Previous 5 Years.....	C.2
C.2	Radionuclide Concentrations in Columbia River Water Samples Collected at Richland, Washington, 2003 Compared to Previous 5 Years.....	C.3
C.3	Radionuclide Concentrations Measured in Columbia River Water Samples Collected Along Transects of the Hanford Reach, 2003.....	C.4
C.4	Radionuclide Concentrations Measured in Columbia River Water Samples Collected at Near-Shore Locations in the Hanford Reach, 2003.....	C.5
C.5	Concentrations of Dissolved Metals in Columbia River Transect and Near-Shore Water Samples Collected Near the Hanford Site, 2003.....	C.6
C.6	Selected U.S. Geological Survey Columbia River Water Quality Data for Vernita and Richland, Washington, 2003 .....	C.8
C.7	Radionuclide Concentrations in Sediment from the Columbia River Near the Hanford Site and from Columbia River Riverbank Springs Along the Hanford Site, 2003 Compared to Previous 5 Years .....	C.9
C.8	Median Metal Concentrations in Sediment Samples Collected from the Columbia River Near the Hanford Site, 2003 .....	C.12

C.9	Radionuclide Concentrations Measured in Columbia River Water Samples Collected from Riverbank Springs Along the Hanford Site, 2003 Compared to Previous 5 Years .....	C.13
C.10	Annual Average Dose Rates Measured On and Around the Hanford Site in Calendar Year 2003 .....	C.15
D.1	Washington State Water Quality Standards for the Hanford Reach of the Columbia River.....	D.2
D.2	Selected Drinking Water Standards .....	D.3
D.3	Selected Surface Freshwater Quality Criteria for Toxic Pollutants.....	D.4
D.4	Radiation Standards for Protection of the Public from all Routine DOE Concentrations .....	D.5
D.5	Selected DOE Derived Concentration Guides.....	D.6
D.6	Environmental Permits .....	D.7
