Preface	iii
Summary	v
Acknowledgments	xvii
1.0 Introduction	1.1
1.0.1 Current Site Mission	1.1
1.0.2 Overview of the Hanford Site	1.1
1.0.3 Site Management.....	1.5
2.0 Public Involvement at Hanford	2.1
2.0.1 The Role of Indian Tribes.....	2.1
2.0.2 Consultations and Meetings with Tribes, Interested Parties, and the State Historic Preservation Office	2.2
2.0.3 Hanford Natural Resource Trustee Council.....	2.2
2.0.4 Public Participation in Hanford Site Decisions	2.3
2.0.5 Hanford Advisory Board.....	2.3
3.0 Regulatory Oversight at Hanford	3.1
3.0.1 Hanford Federal Facility Agreement and Consent Order	3.1
3.0.2 Status of Tri-Party Agreement Milestones	3.2
3.0.3 Approved Modifications to the Tri-Party Agreement.....	3.2
3.0.4 Washington State Department of Health	3.2
4.0 Environmental Program Information	4.1
4.0.1 Environmental Management Systems.....	4.1
4.0.2 Chemical Management Systems	4.1
5.0 Compliance Summary.....	5.1
5.1 Hazardous Materials	5.3
5.1.1 Emergency Planning and Community Right-To-Know Act.....	5.3
5.1.2 Resource Conservation and Recovery Act	5.3
5.1.2.1 Hanford Facility RCRA Permit.....	5.4
5.1.2.2 RCRA/Dangerous Waste Permit Applications and Closure Plans.....	5.4
5.1.2.3 RCRA Groundwater Monitoring.....	5.5
5.1.2.4 RCRA Inspections.....	5.5
5.1.3 Toxic Substances Control Act	5.6
5.1.4 Federal Insecticide, Fungicide, and Rodenticide Act	5.7
5.2 Environmental Remediation	5.9
5.2.1 Comprehensive Environmental Response, Compensation, and Liability Act.....	5.9
5.2.2 Hanford Site Institutional Controls Plan.....	5.9

5.2.3	CERCLA and Washington Administrative Code Reportable Releases to the Environment.....	5.10
5.2.4	Washington Administrative Code Groundwater Monitoring.....	5.10
5.3	Air Quality.....	5.13
5.3.1	Clean Air Act.....	5.13
5.3.2	Clean Air Act Enforcement Inspections	5.13
5.4	Water Quality Protection	5.15
5.4.1	Clean Water Act	5.15
5.4.2	Safe Drinking Water Act.....	5.16
5.5	Natural and Cultural Resources.....	5.17
5.5.1	Ecological Compliance.....	5.17
5.5.1.1	Endangered Species Act	5.17
5.5.1.2	Migratory Bird Treaty Act	5.17
5.5.2	Cultural Resources.....	5.18
5.6	National Environmental Policy Act.....	5.19
5.6.1	Recently Issued Environmental Impact Statements	5.19
5.6.2	Recent Environmental Assessments	5.20
5.7	Atomic Energy Act	5.21
5.8	Defense Nuclear Facilities Safety Board	5.23
5.8.1	Defense Nuclear Facilities Safety Board Related Accomplishments, DOE Richland Operations Office.....	5.23
5.8.2	Defense Nuclear Facilities Safety Board Related Accomplishments, DOE Office of River Protection	5.23
5.8.2.1	Structural Design and Seismic Analysis of the Waste Treatment Plant.....	5.24
5.8.2.2	Concerns about Hydrogen Generated at the Waste Treatment Plant.....	5.24
5.8.2.3	Assessment of Waste Treatment Plant Design and Analysis Computer Software	5.25
5.8.2.4	Assessment of Instrument and Control System Computer Software for Tank Farms	5.25
5.8.2.5	Integrated Safety Management System in the Tank Farms	5.25
5.8.2.6	Double-Shell Waste Tank Integrity.....	5.25
5.8.3	Status of DOE Order 435.1, Radioactive Waste Management.....	5.25
5.9	Environmental Occurrences	5.27
5.9.1	Category 2 – Moderate Impact.....	5.27
5.9.2	Category 3 – Minor Impact	5.27
5.9.3	Category 4 – Some Impact	5.28
5.10	Pollution Prevention and Waste Minimization.....	5.29
5.10.1	Pollution Prevention Program.....	5.29
5.10.2	Washington State Initiative 297, The Cleanup Priority Act	5.30
6.0	Environmental Restoration	6.1
6.1	Cleanup Operations.....	6.3
6.1.1	Groundwater Remediation Project	6.3
6.1.2	Waste Site Investigations and Remediation Activities in the 200 Areas	6.3

6.1.3	Cleanup and Remediation Activities in the 100 Areas.....	6.9
6.1.3.1	K Basins Closure Activities	6.9
6.1.3.2	Remediation of Waste Sites in the 100 Areas.....	6.10
6.1.4	Cleanup and Remediation Activities in the 300 Area	6.10
6.1.5	Cleanup and Remediation Activities in the 600 Area.....	6.11
6.2	Facility Decommissioning Activities.....	6.13
6.2.1	Facility Decommissioning in the 200 Areas	6.13
6.2.1.1	Decommissioning of the 224-T Plutonium Concentration Facility.....	6.13
6.2.1.2	Decommissioning of the 224-B Plutonium Concentration Facility	6.13
6.2.1.3	Decommissioning of the 233-S Plutonium Concentration Facility	6.14
6.2.1.4	Removal of Ancillary Facilities at the 221-U Chemical Processing Facility	6.14
6.2.1.5	Decommissioning of the Plutonium Finishing Plant	6.15
6.2.1.6	Surveillance, Maintenance, and Deactivation Activities in the 200 Areas and on the Fitzner/Eberhardt Arid Lands Ecology Reserve Unit.....	6.16
6.2.1.7	Investigating the Potential for Using the 200 Areas Chemical Separations Plants as Waste Disposal Facilities	6.16
6.2.2.1	Deactivation of the 327 and 324 Facilities	6.17
6.2.2.2	Status of the 309 Plutonium Recycle Test Reactor Facility.....	6.17
6.2.2.3	Decommissioning of the 313 and 314 Buildings.....	6.17
6.2.3	Decommissioning of Facilities in the 400 Area	6.17
6.2.4	Decommissioning of Facilities in the 100 Areas.....	6.18
6.3	Waste Management Operations	6.19
6.3.1	Waste Classifications	6.19
6.3.2	Solid Waste Inventories	6.19
6.3.3	Solid Waste Management.....	6.20
6.3.3.1	Central Waste Complex	6.20
6.3.3.2	Waste Receiving and Processing Facility	6.21
6.3.3.3	T Plant Complex	6.21
6.3.3.4	Mixed Low-Level Waste Treatment and Disposal	6.23
6.3.3.5	Disposal of Navy Reactor Compartments	6.23
6.3.3.6	Environmental Restoration Disposal Facility	6.23
6.3.3.7	Radioactive Mixed Waste Disposal Facility	6.24
6.3.3.8	Low-Level Burial Grounds	6.24
6.3.4.1	Liquid Effluent Retention Facility.....	6.25
6.3.4.2	Effluent Treatment Facility.....	6.25
6.3.4.3	200 Area Treated Effluent Disposal Facility	6.26
6.3.4.4	300 Area Treated Effluent Disposal Facility	6.26
6.3.4.5	242-A Evaporator	6.26
6.4	Underground Waste Storage Tanks	6.27
6.4.1	Waste Tank Status	6.27
6.4.1.1	Single-Shell Tanks.....	6.27
6.4.1.2	Double-Shell Tanks	6.28
6.4.2	Waste Tank Closure Acceleration.....	6.28
6.5	Hanford Waste Treatment and Immobilization Plant.....	6.31

6.6	Tank Treatment Technologies	6.33
7.0	Site Closure Activities.....	7.1
7.0.1	Radiological Release of Property from Hanford.....	7.1
7.0.1.1	Radiological Clearance for Release of Selected Hanford Reach National Monument Lands.....	7.1
7.0.1.2	Assessment of Fitzner/Eberhardt Arid Lands Ecology Reserve Unit Soil for Residual Radioactive Contamination.....	7.4
7.0.1.3	Emergency Decontamination Facility.....	7.4
7.0.2	Columbia River Corridor Risk Assessment.....	7.5
8.0	Environmental and Resource Protection Programs.....	8.1
8.0.1	Effluent Monitoring Program	8.2
8.0.1.1	Liquid Effluent and Airborne Emissions Monitoring.....	8.2
8.0.1.2	Near-Facility Environmental Monitoring	8.2
8.0.2	Public Safety and Resource Protection Project.....	8.3
8.0.2.1	Hanford Environmental Oversight	8.4
8.0.2.2	Meteorological and Climatological Services Project	8.4
8.0.2.3	Surface Environmental Surveillance Project	8.5
8.0.2.4	Ecological Monitoring and Compliance Project.....	8.6
8.0.2.5	Cultural Resources Project	8.7
8.0.3	Groundwater Performance Assessment Project	8.7
8.0.4	Drinking Water Monitoring Project	8.7
8.0.5	Biological Control Program.....	8.8
8.1	Airborne Emissions from Hanford Site Facilities	8.9
8.1.1	Radioactive Airborne Emissions	8.9
8.1.2	Non-Radioactive Airborne Emissions.....	8.10
8.2	Ambient-Air Monitoring	8.13
8.2.1	Ambient-Air Monitoring Near Facilities and Operations.....	8.13
8.2.2	Site-Wide and Offsite Ambient-Air Monitoring.....	8.18
8.2.2.1	Collection of Site-Wide and Offsite Ambient-Air Samples and Analytes Tested.....	8.18
8.2.2.2	Ambient-Air Monitoring Results for Site-Wide and Offsite Samples	8.22
8.2.2.3	Monitoring of Airborne Particulate Matter on the Hanford Site	8.27
8.3	Liquid Effluent from Hanford Site Facilities.....	8.31
8.3.1	Radionuclides in Liquid Effluent	8.31
8.3.2	Non-Radioactive Hazardous Materials in Liquid Effluent	8.31
8.4	Surface-Water and Sediment Monitoring	8.33
8.4.1	Monitoring of Columbia River Water.....	8.33
8.4.1.1	Collection of Columbia River Water Samples and Analytes of Interest.....	8.37
8.4.1.2	Radiological Results for Columbia River Water Sample Analyses.....	8.38
8.4.1.3	Chemical and Physical Water Quality Results for Columbia River Water Samples.....	8.43
8.4.2	Monitoring of Columbia River Sediment	8.44
8.4.2.1	Collection of Columbia River Sediment Samples and Analytes of Interest.....	8.46
8.4.2.2	Radiological Results for Columbia River Sediment Sample Analyses	8.46
8.4.2.3	Chemical Results for Columbia River Sediment Sample Analyses.....	8.48

8.4.3	Monitoring of Onsite Pond Water and Sediment.....	8.49
8.4.3.1	Collection of Pond Water and Sediment Samples and Analytes of Interest.....	8.49
8.4.3.2	Radiological Results for Pond Water and Sediment Sample Analyses.....	8.49
8.4.4	Monitoring of Offsite Irrigation Water	8.51
8.5	Columbia River Shoreline Springs Monitoring	8.53
8.5.1	Water Monitoring at Columbia River Shoreline Springs	8.53
8.5.1.1	Collection of Water Samples from Columbia River Shoreline Springs and Analytes of Interest.....	8.54
8.5.1.2	Radiological Results for Water Samples from Columbia River Shoreline Springs.....	8.55
8.5.1.3	Chemical Results for Water Samples from Columbia River Shoreline Springs	8.57
8.5.2	Monitoring Columbia River Shoreline Springs Sediment	8.58
8.5.3	Radiological Monitoring of Columbia River Shoreline Spring Water in Seep Wells in the 100-N Area.....	8.60
8.6	Radiological Monitoring of Hanford Site Drinking Water	8.63
8.6.1	Hanford Site Drinking Water Systems.....	8.63
8.6.2	Hanford Site Drinking Water Supply Facilities	8.63
8.6.3	Collection of Drinking Water Samples and Analytes of Interest.....	8.64
8.6.4	Radiological Results for Hanford Site Drinking Water Samples	8.65
8.7	Groundwater Monitoring	8.69
8.7.1	Highlights and Emerging Issues.....	8.69
8.7.1.1	Groundwater Monitoring Highlights	8.69
8.7.1.2	Groundwater Monitoring at Operable Units	8.71
8.7.1.3	Groundwater Monitoring at Waste Facilities.....	8.71
8.7.2	Groundwater Flow and Movement	8.71
8.7.3	Groundwater Monitoring Results.....	8.74
8.7.3.1	Overview.....	8.74
8.7.3.2	Groundwater Monitoring Results for the 100-BC-5 Operable Unit	8.79
8.7.3.3	Groundwater Monitoring Results for the 100-KR-4 Operable Unit	8.79
8.7.3.4	Groundwater Monitoring Results for the 100-NR-2 Operable Unit.....	8.81
8.7.3.5	Groundwater Monitoring Results for the 100-HR-3-D Operable Unit	8.81
8.7.3.6	Groundwater Monitoring Results for the 100-HR-3-H Operable Unit	8.81
8.7.3.7	Groundwater Monitoring Results for the 100-FR-3 Operable Unit.....	8.82
8.7.3.8	Groundwater Monitoring Results for the 200-ZP-1 Operable Unit	8.83
8.7.3.9	Groundwater Monitoring Results for the 200-UP-1 Operable Unit	8.84
8.7.3.10	Groundwater Monitoring Results for the 200-BP-5 Operable Unit.....	8.84
8.7.3.11	Groundwater Monitoring Results for the 200-PO-1 Operable Unit	8.85
8.7.3.12	Groundwater Monitoring Results for the 300-FF-5 Operable Unit	8.87
8.7.3.13	Groundwater Monitoring Results for the 1100-EM-1 Operable Unit.....	8.88
8.7.3.14	Groundwater Monitoring Results for the Confined Aquifers.....	8.88
8.7.4	Groundwater and Vadose Zone Remediation	8.88
8.7.4.1	Groundwater Remediation Using Pump-and-Treat Systems and In Situ Redox Manipulation Technology	8.89
8.7.4.2	Vadose Zone Remediation Using Soil-Vapor Extraction Systems.....	8.96
8.7.5	Well Installation, Maintenance, and Decommissioning	8.97
8.7.6	Groundwater Modeling	8.97
8.7.6.1	An Assessment Tool for Estimating the Impact of Groundwater Contaminants	8.97
8.7.6.2	New Science and Technology.....	8.98

8.7.7	Groundwater Remediation Project: Strategic Planning, Public Involvement, and Database Management	8.99
8.8	Food and Farm Products Monitoring.....	8.101
8.8.1	Collection of Food and Farm Product Samples.....	8.101
8.8.2	Milk.....	8.101
8.8.3	Asparagus.....	8.104
8.8.4	Grapes	8.104
8.8.5	Leafy Vegetables	8.104
8.8.6	Potatoes and Tomatoes.....	8.104
8.8.7	Wines	8.104
8.9	Soil Monitoring.....	8.107
8.9.1	Soil Monitoring Near Hanford Site Facilities and Operations.....	8.107
8.9.1.1	Soil Sampling Near Hanford Site Facilities and Operations	8.107
8.9.1.2	Analytical Results for Soil Samples Collected Near Hanford Site Facilities and Operations	8.108
8.9.1.3	Investigations of Radioactive Contamination in Soil Near Hanford Site Facilities and Operations	8.111
8.9.2	Soil Monitoring at Site-Wide and Offsite Locations.....	8.113
8.10	Vegetation Monitoring	8.119
8.10.1	Plant Communities and Population Surveys on the Hanford Site.....	8.119
8.10.1.1	Vegetation Cover Types and Habitats.....	8.119
8.10.1.2	Rare Plant Monitoring	8.120
8.10.2	Vegetation Monitoring Near Hanford Site Facilities and Operations.....	8.120
8.10.2.1	Vegetation Sampling Near Hanford Site Facilities and Operations.....	8.121
8.10.2.2	Analytical Results for Vegetation Samples Collected Near Hanford Site Facilities and Operations	8.121
8.10.2.3	Investigations of Radioactive Contamination in Vegetation Near Hanford Site Facilities and Operations	8.125
8.10.3	Vegetation Monitoring at Site-Wide and Offsite Locations.....	8.125
8.10.3.1	Vegetation Sampling at Site-Wide and Offsite Locations	8.125
8.10.3.2	Analytical Results for Vegetation Samples Collected at Site-Wide and Offsite Locations.....	8.126
8.10.4	Vegetation Control Activities.....	8.128
8.10.4.1	Control of Contaminated or Potentially Contaminated Vegetation in 2004	8.128
8.10.4.2	Revegetation Activities in 2004 to Control Blowing Weeds and Dust.....	8.130
8.10.4.3	Noxious Weed Control.....	8.130
8.11	Fish and Wildlife Monitoring	8.135
8.11.1	Ecological Monitoring of Hanford Site Wildlife Populations.....	8.135
8.11.1.1	Chinook Salmon	8.135
8.11.1.2	Steelhead	8.136
8.11.1.3	Mule Deer	8.137
8.11.1.4	Freshwater Mollusks	8.138
8.11.1.5	Amphibians	8.141
8.11.1.6	Small Mammals	8.142
8.11.1.7	Bald Eagles	8.142
8.11.1.8	Sage Sparrow	8.143

8.11.2	Monitoring of Fish and Wildlife for Hanford-Produced Contaminants.....	8.143
8.11.2.1	Analytical Results for Carp Samples.....	8.147
8.11.2.2	Analytical Results for Upland Game Samples.....	8.150
8.11.2.3	Analytical Results for Deer Samples	8.151
8.11.2.4	Analytical Results for Elk Samples.....	8.153
8.11.3	Sentinel Organisms	8.153
8.11.3.1	Asiatic Clam Sample Results and Analytes of Interest	8.153
8.11.3.2	Sculpin Sample Results and Analytes of Interest	8.157
8.11.4	Investigations of Radioactive Contamination in Wildlife and Wildlife-Related Materials Near Hanford Site Facilities and Operations	8.158
8.11.5	Control of Pests and Contaminated Biota	8.159
8.12	Threatened and Endangered Species at Hanford	8.161
8.13	External Radiation Monitoring	8.165
8.13.1	External Radiation Monitoring Onsite Near Facilities and Operations.....	8.166
8.13.1.1	External Radiation Measurements Onsite Near Facilities and Operations.....	8.166
8.13.1.2	Radiological Surveys at Active and Inactive Waste Disposal Sites.....	8.169
8.13.2	External Radiation Monitoring at Site-Wide and Offsite Locations.....	8.170
8.13.2.1	External Radiation Measurements at Site-Wide Locations.....	8.174
8.13.2.2	External Radiation Measurements at Perimeter and Offsite Locations.....	8.174
8.13.2.3	External Radiation Measurements at Columbia River Shoreline Locations.....	8.175
8.13.2.4	Columbia River Shoreline Radiological Survey Results.....	8.176
8.13.2.5	Pressurized Ionization Chamber Results at Four Offsite Locations.....	8.176
8.14	Potential Radiological Doses from 2004 Hanford Site Operations.....	8.179
8.14.1	Maximally Exposed Individual Dose	8.180
8.14.2	Collective Dose	8.182
8.14.3	Compliance with Clean Air Act Standards.....	8.184
8.14.3.1	Dose to an Offsite Maximally Exposed Individual.....	8.185
8.14.3.2	Maximum Dose to Non-DOE Workers on the Site.....	8.185
8.14.3.3	Dose from Diffuse and Fugitive Radionuclide Emissions	8.185
8.14.4	Special Case Dose Estimates	8.185
8.14.4.1	Maximum Boundary Dose Rate.....	8.186
8.14.4.2	Sportsman Dose	8.186
8.14.4.3	Onsite Drinking Water.....	8.186
8.14.4.4	Inhalation Doses for Entire Year	8.187
8.14.5	Doses from Non-DOE Sources	8.187
8.14.6	Dose Rates to Animals	8.188
8.14.7	Radiological Dose in Perspective	8.188
8.15	Cultural Resources Monitoring	8.191
8.15.1	Cultural Resources Reviews	8.191
8.15.2	Cultural Resources Protection.....	8.193
8.15.2.1	Monitoring Cultural Sites for Natural and Visitor Impact	8.194
8.15.2.2	Assessing Natural and Visitor Impact	8.195
8.15.2.3	Responding to Impact with Protective Measures.....	8.195
8.15.2.4	Identification and Evaluation Activities.....	8.197
8.15.2.5	Management of Artifact and Data Collections.....	8.197

8.16	Climate and Meteorology	8.199
8.16.1	Historical Climatological Information.....	8.201
8.16.2	Results of 2004 Monitoring	8.201
8.17	Community Involvement in Environmental Surveillance	8.203
8.18	Quality Assurance.....	8.205
8.18.1	Site-Wide and Offsite Environmental Monitoring and Groundwater Monitoring.....	8.205
8.18.1.1	Project Management Quality Assurance.....	8.205
8.18.1.2	Sample Collection Quality Assurance and Quality Control	8.205
8.18.1.3	Analytical Results Quality Assurance and Quality Control.....	8.206
8.18.1.4	DOE and EPA Comparison Studies	8.207
8.18.1.5	Pacific Northwest National Laboratory Evaluations.....	8.208
8.18.1.6	Laboratory Internal Quality Assurance Programs	8.209
8.18.1.7	Media Audits and Comparisons	8.210
8.18.2	Effluent Monitoring and Environmental Monitoring Near Facilities and Operations	8.211
8.18.2.1	Sample Collection Quality Assurance	8.212
8.18.2.2	Analytical Results Quality Assurance.....	8.212

Appendix C - Additional Monitoring Results for 2004		
Appendix D - Standards and Permits		
Appendix E - Dose Calculations		
Appendix F - Radionuclides Measured by Gamma Spectroscopy		

Figures

1.0.1	The Hanford Site and Surrounding Area.....	1.2
1.0.2	Management Units on the Hanford Reach National Monument	1.4
7.0.1	Median and Maximum Measured Soil Concentrations and Authorized Release Limits for Radionuclides Detected in Soil Samples Collected on the Fitzner/Eberhardt Arid Lands Ecology Reserve Unit of the Hanford Reach National Monument in 2004.....	7.4
8.1.1	Airborne Releases of Selected Radionuclides from the Hanford Site, 1994 through 2004.....	8.9
8.2.1	Average Concentrations of Selected Radionuclides in Ambient-Air Samples Collected on the Hanford Site Near Facilities and Operations Compared to Those Collected in Distant Communities, 1999 through 2004.....	8.16
8.2.2	Hanford Site-Wide and Offsite Ambient-Air Sampling Locations During 2004.....	8.19
8.2.3	Gross Alpha Concentrations in Airborne Particulate Samples Collected at Hanford Site-Wide and Distant Locations During 2004	8.25

8.2.4	Gross Beta Concentrations in Airborne Particulate Samples for all Hanford Site-Wide and Offsite Sampling Locations in 2004 and Average Wind Speed over the Sampling Period.....	8.25
8.2.5	Gross Beta Concentrations Measured in Airborne Particulate Samples for Hanford Site-Wide and Offsite Sampling Locations in 2004 Versus the Average Wind Speed over the Sampling Period.....	8.26
8.2.6	Iodine-129 Concentrations in Hanford Site-Wide and Offsite Ambient-Air Samples, 1999 through 2004.....	8.26
8.2.7	Daily Average PM ₁₀ Particle Concentrations at the Hanford Meteorology Station, 2004	8.28
8.2.8	Daily Average PM _{2.5} Concentrations at the Hanford Meteorology Station, 2004	8.29
8.3.1	Liquid Releases of Selected Radionuclides from the Hanford Site, 1994 through 2004	8.32
8.4.1	Surface-Water and Sediment Sampling Locations On and Around the Hanford Site, 2004	8.34
8.4.2	Mean, Maximum, and Minimum Columbia River Flow Rates at Priest Rapids Dam, Washington, 2004.....	8.36
8.4.3	Annual Average Gross Alpha Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1999 through 2004	8.38
8.4.4	Annual Average Gross Beta Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1999 through 2004	8.39
8.4.5	Annual Average Tritium Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1999 through 2004	8.39
8.4.6	Annual Average Strontium-90 Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1999 through 2004	8.40
8.4.7	Annual Average Total Uranium Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1999 through 2004	8.40
8.4.8	Annual Average Iodine-129 Concentrations in Columbia River Water Upstream and Downstream of the Hanford Site, 1999 through 2004	8.40
8.4.9	Tritium Concentrations in Cross-River Transect Water Samples from the Hanford Reach of the Columbia River, September 2004.....	8.41
8.4.10	Tritium Concentrations in Columbia River Water Collected at the Hanford Site Shoreline, 2004.....	8.42
8.4.11	U.S. Geological Survey Water Quality Measurements for the Columbia River Upstream and Downstream of the Hanford Site, 1999 through 2004.....	8.45
8.4.12	Median, Maximum, and Minimum Concentrations of Selected Radionuclides Measured in Columbia River and Snake River Sediment, 1999 through 2004	8.47
8.4.13	Median, Maximum, and Minimum Concentrations of Selected Metals Measured in Columbia River Sediment, 2004	8.48
8.4.14	Average Acid Volatile Sulfide/Simultaneously Extracted Zinc and Sum of Simultaneously Extracted Cadmium, Copper, Lead, Nickel, and Mercury in Columbia River Sediment, 1997 through 2003 Compared to 2004 Data.....	8.49

8.4.15	Median, Maximum, and Minimum Gross Beta and Tritium Concentrations in Water Samples from the Fast Flux Test Facility Pond on the Hanford Site, 1999 through 2004	8.50
8.4.16	Median, Maximum, and Minimum Concentrations of Tritium in Water Samples from West Lake on the Hanford Site, 1999 through 2004	8.50
8.5.1	Concentrations of Selected Radionuclides in Water from Columbia River Shoreline Springs Near the Hanford Site's 300 Area, 1999 through 2004	8.56
8.5.2	Concentrations of Selected Radionuclides in Columbia River Shoreline Springs Water at the Hanford Town Site, 1999 through 2004	8.57
8.6.1	Hanford Site Drinking Water Distribution Facilities and Sampling Locations, 2004.....	8.64
8.6.2	Tritium Concentrations in Drinking Water from Three Wells in the Hanford Site's 400 Area, 1985 through 2004.....	8.67
8.7.1	Groundwater Interest Areas on the Hanford Site in 2004	8.72
8.7.2	Locations of the Regulated Waste Management Units on the Hanford Site During 2004.....	8.75
8.7.3	Water-Table Elevations and Inferred Flow Direction for the Unconfined Aquifer at the Hanford Site, March 2004	8.76
8.7.4	Distribution of Major Radionuclides in Hanford Site Groundwater at Concentrations Above Drinking Water Standards During 2004.....	8.77
8.7.5	Distribution of Major Hazardous Chemicals in Hanford Site Groundwater at Concentrations Above Drinking Water Standards During 2004.....	8.78
8.7.6	Influence of Pump-and-Treat Remediation and Natural Processes on Chromium Concentrations in Groundwater Beneath the Hanford Site's 100-H Area, 1994 Compared to 2004	8.82
8.7.7	Tritium Concentrations in Hanford Site Groundwater, 1980 Compared to 2004	8.86
8.7.8	Pump-and-Treat, In Situ Remediation, and Soil-Gas Extraction Systems Operating on the Hanford Site in 2004	8.89
8.7.9	The Effect of Pump-and-Treat System on Groundwater Chromium Concentrations in the Hanford Site's 100-K Area, 1994 Compared to 2004.....	8.91
8.7.10	Chromium Concentrations in Hanford Site's Central 100-D Area Groundwater, 1999 Compared to 2004	8.92
8.7.11	Srontium-90 Concentrations in the Hanford Site's 100-N Area Groundwater, 1990 Compared to 2004	8.93
8.7.12	Influence of a Pump-and-Treat System on Carbon Tetrachloride Concentrations Beneath the Hanford Site's 200-West Area, 1990 Compared to 2004.....	8.94
8.7.13	Influence of a Pump-and-Treat System at the Hanford Site's 200-UP-1 Operable Unit on Uranium Concentrations in Groundwater, 1995 Compared to 2004.....	8.95
8.7.14	Impact of a Pump-and-Treat System at the Hanford Site's 200-UP-1 Operable Unit on Technetium-99 Concentrations in Groundwater, 1995 Compared to 2004	8.96

8.8.1	Food and Farm Product Sampling Locations, 2004	8.102
8.9.1	Average Concentrations of Selected Radionuclides in Soil Samples Collected on the Hanford Site Near Facilities and Operations Compared to Those Collected in Distant Communities, 1999 through 2004.....	8.109
8.9.2	Hanford Site-Wide and Offsite Soil Sampling Locations, 2004.....	8.114
8.9.3	Average Concentrations of Cesium-137 and Plutonium-239/240 in Hanford Site-Wide and Offsite Soil Samples, 1993 through 2004	8.117
8.10.1	Average Concentrations of Selected Radionuclides in Vegetation Samples Collected Near Hanford Site Facilities and Operations Compared to Those Collected in Distant Communities, 1999 through 2004.....	8.122
8.10.2	Hanford Site-Wide and Offsite Vegetation Sampling Locations, 2004.....	8.127
8.10.3	Plutonium-239/240 Concentrations in Hanford Site-Wide and Offsite Vegetation Samples Collected in 2004	8.130
8.10.4	Major Populations of Noxious Weeds on the Hanford Site, 2004.....	8.132
8.11.1	Number of Salmon Redds in the Hanford Reach of the Columbia River	8.136
8.11.2	Major Fall Chinook Salmon Spawning Areas in the Hanford Reach of the Columbia River.....	8.137
8.11.3	Estimates of the Number of Fawns per 100 Does in the Post-Hunting Period on the Hanford Site from 1994 through 2004	8.138
8.11.4	Percent of Male Mule Deer on the Hanford Site from 1994 through 2004 Showing Signs of Abnormal Antler Growth	8.139
8.11.5	Mean Sagebrush Cover, Territory Size, and Sagebrush Patchiness for Burned Versus Unburned Sage Sparrow Territories on the Hanford Site in 2003 and 2004	8.144
8.11.6	Fish and Wildlife Sampling Locations On and Around the Hanford Site, 2004	8.145
8.11.7	Median, Maximum, and Minimum Strontium-90 Concentrations in Columbia River Carp Carcasses at the Hanford Site, 2004 Compared to Previous Years.....	8.148
8.11.8	Median, Maximum, and Minimum Strontium-90 Concentrations in Hanford Site and Background Upland Game Bird Bone Samples, 2004 Compared to Previous Years	8.150
8.11.9	Median, Maximum, and Minimum Strontium-90 Concentrations in Hanford Site and Background Deer Bone Samples, 2004 Compared to Previous Years.....	8.152
8.11.10	Comparison of Median and Maximum Concentrations of Strontium-90 in Elk Bone, 2004 Compared to Previous Years and Reference Locations	8.154
8.11.11	Chromium Levels in Soft Tissues of Asiatic Clams Collected Near the Vernita Bridge and the 100-B/C, 100-K, 100-N, and 100-D Areas at the Low-Water Line and 2 Meters Below the Low-Water Line, 2004.....	8.156
8.13.1	Annual Average Dose Rates in Selected Areas Near Facilities and Operations on the Hanford Site	8.168

8.13.2	Surface Environmental Surveillance Project Thermoluminescent Dosimeter Locations on the Hanford Site, 2004.....	8.171
8.13.3	Community, Distant, and Perimeter Thermoluminescent Dosimeter Locations Around the Hanford Site, 2004	8.172
8.13.4	Hanford Site Surface Environmental Surveillance Project Thermoluminescent Dosimeter Locations Along the Columbia River, 2004	8.173
8.13.5	Annual Average Dose Rates at Site-Wide, Perimeter, and Distant Locations of the Hanford Site, 1999 through 2004.....	8.175
8.13.6	Maximum and Average External Dose Rates Measured Along the Columbia River at 100-N Area Shoreline Locations on the Hanford Site, 1999 through 2004.....	8.176
8.14.1	Locations Important to Dose Calculations at the Hanford Site, 2004	8.181
8.14.2	Calculated Dose to the Hypothetical, Maximally Exposed Individual Near the Hanford Site, 2000 through 2004.....	8.182
8.14.3	Collective Dose to the Population within 80 Kilometers of the Hanford Site, 2000 through 2004.....	8.183
8.14.4	National Annual Average Radiological Doses from Various Sources.....	8.184
8.15.1	Cultural Resources Review Requests for Hanford Site Operational Areas Received in 2004	8.192
8.15.2	Percentage of Impact by Type at Cultural Sites at Hanford from 1989 through 2004	8.194
8.15.3	Bank Loss at Locke Island Erosion Transects from 1996 through 2004.....	8.195
8.15.4	Percentage of Monitored Sites at Hanford Affected by Collector Digging by Year	8.196
8.15.5	Percentage of Monitored Sites at Hanford with Public Recreation Impact by Year	8.196
8.16.1	Hanford Meteorological Monitoring Network Wind Roses, 2004	8.200
8.17.1	Community Members See Environmental Surveillance in Action at a Community-Operated Environmental Surveillance Station in Richland, Washington.....	8.203
A.1	A Graphical Representation of Maximum, Median, and Minimum Values	A.6
A.2	Data Plotted Using a Linear Scale.....	A.6
A.3	Data Plotted Using a Logarithmic Scale	A.6
A.4	Data with Error Bars Plotted Using a Linear Scale	A.7

Tables

S.1	Compliance with Federal Acts at the Hanford Site in 2004	vi
S.2	Hanford Site Waste Summary, 2004	vii

S.3	Summary of Groundwater Pump-and-Treat Systems and a Vadose Zone Soil-Vapor Extraction System	ix
S.4	Hanford Site Monitoring Results for 2004.....	xiv
5.1.1	Emergency Planning and Community Right-to-Know Act Compliance Reporting at the Hanford Site, 2004	5.4
5.1.2	Average Quantity of Ten Hazardous Chemicals Stored on the Hanford Site, 2004	5.4
6.3.1	Quantities of Solid Waste Generated on the Hanford Site, 1999 through 2004	6.20
6.3.2	Quantities of Solid Waste Received on the Hanford Site from Offsite Sources, 1999 through 2004.....	6.20
6.3.3	Quantities of Dangerous Waste Shipped Off the Hanford Site, 1999 through 2004	6.21
6.3.4	Radioactive Solid Waste Stored or Disposed of on the Hanford Site, 2004.....	6.22
6.4.1	Quantities of Liquid Waste Generated and Stored Within the Tank Farm System on the Hanford Site During 2004 and During Each of the Previous 5 Years.....	6.27
7.0.1	Maximum Levels of Radionuclides Allowed in Soil on the Hanford Reach National Monument	7.3
8.0.1	Routine Environmental Monitoring Samples and Locations Near Hanford Site Facilities and Operations, 2004.....	8.4
8.0.2	Routine Hanford Site Environmental Surveillance Samples and Locations at Site-Wide and Offsite Locations, 2004.....	8.6
8.1.1	Radionuclides Discharged to the Atmosphere at the Hanford Site, 2004.....	8.11
8.1.2	Non-Radioactive Constituents Discharged to the Atmosphere at the Hanford Site, 2004.....	8.12
8.2.1	Monitoring Locations and Analyses for Ambient-Air Monitoring Samples Collected Near Hanford Site Facilities and Operations, 2004	8.14
8.2.2	Annual Average and Maximum Concentrations of Selected Radionuclides in Ambient-Air Samples Collected Near Facilities and Operations on the Hanford Site, 2004.....	8.17
8.2.3	Site-Wide and Offsite Ambient-Air Sampling Locations, Sample Composite Groups, and Analytes, 2004	8.20
8.2.4	Airborne Radionuclide Concentrations in the Environs of the Hanford Site, 2004 Compared to Previous Years	8.23
8.3.1	Radionuclides in 200 Areas Liquid Effluent Discharged to the State-Approved Land Disposal Site at the Hanford Site, 2004	8.31
8.3.2	Radionuclides in Liquid Effluent from the 100 Areas Discharged to the Columbia River, 2004.....	8.31
8.4.1	Surface-Water Surveillance On and Near the Hanford Site, 2004	8.35
8.4.2	Columbia and Snake River Sediment Surveillance, 2004.....	8.36
8.5.1	Shoreline Springs Water Monitoring at the Hanford Site, 2004.....	8.54
8.5.2	Hanford Reach Shoreline Springs Sediment Monitoring, 2004.....	8.54

8.5.3	Concentration Ranges for Selected Chemicals in Water Monitoring Samples from Columbia River Shoreline Springs at the Hanford Site, 1999 through 2004.....	8.59
8.5.4	Radionuclide Concentrations in Samples Collected from Wells Along the Columbia River Shoreline in the 100-N Area, 2004.....	8.61
8.6.1	Concentrations of Selected Radiological Constituents in Hanford Site Drinking Water, 2004	8.65
8.6.2	Tritium Concentrations in Hanford Site 400 Area Drinking Water Wells, 2004.....	8.66
8.7.1	Summary of Hanford Site Groundwater Performance Assessment Project by Groundwater Interest Area, 2004.....	8.70
8.7.2	Summary of Hanford Site Groundwater Performance Assessment Project by Monitoring Purpose, 2004.....	8.70
8.7.3	Regulated Units Requiring Groundwater Monitoring on the Hanford Site, 2004	8.73
8.7.4	Areas of Contaminant Plumes on the Hanford Site at Levels Above Drinking Water Standards, 2004.....	8.79
8.7.5	Summary of Maximum Contaminant Concentrations in Hanford Site Groundwater by Groundwater Interest Area, 2004	8.80
8.7.6	Summary of Maximum Contaminant Concentrations in Hanford Site Groundwater by Monitoring Purpose, 2004.....	8.80
8.7.7	Summary of Groundwater Remediation Activities at the Hanford Site, 2004	8.90
8.7.8	Radioactive Contaminants Investigated in the Composite Analysis and Hazardous Chemical Contaminants Chosen for Future Evaluations	8.98
8.8.1	Sampling Locations, Frequencies, and Analyses Performed for Food and Farm Products Sampled Around the Hanford Site, 2004.....	8.103
8.9.1	Number and Locations of Soil Samples Collected Near Hanford Site Facilities and Operations, 2004.....	8.107
8.9.2	Average Radionuclide Concentrations in Surface Soil Samples Collected on the Hanford Site in the 100-N Area, 1999 through 2004.....	8.110
8.9.3	Average Radionuclide Concentrations in Surface Soil Samples Collected on the Hanford Site in the 100-N Area in 2004, Compared to Distant Communities and Accessible Soil Concentration Limits.....	8.110
8.9.4	Average Radionuclide Concentrations in Surface Soil Samples Collected Near Hanford Site Facilities and Operations in the 200 and 600 Areas, 1999 through 2004	8.110
8.9.5	Radionuclide Concentrations in Surface Soil Samples Collected Near Hanford Site Facilities and Operations in the 200 and 600 Areas in 2004, Compared to Distant Communities and Accessible Soil Concentration Limits	8.111
8.9.6	Average Radionuclide Concentrations in Surface Soil Samples Collected Near Hanford Site Facilities and Operations in the 300 and 400 Areas, 1999 through 2004	8.111

8.9.7	Radionuclide Concentrations in Surface Soil Samples Collected Near Hanford Site Facilities and Operations in the 300 and 400 Areas in 2004, Compared to Distant Communities and Accessible Soil Concentration Limits.....	8.112
8.9.8	Radionuclide Concentrations in Soil Samples Collected on the Hanford Site for Environmental Restoration Contractor Projects, 2004.....	8.112
8.9.9	Number and Location of Soil Contamination Incidents Investigated Near Hanford Site Facilities and Operations, 2004.....	8.113
8.9.10	Annual Number of Soil Contamination Incidents Investigated Near Hanford Site Facilities and Operations, 1994 through 2004.....	8.113
8.9.11	Sampling Information for Hanford Site-Wide and Offsite Soil Samples Collected and Analyzed, 2004	8.115
8.9.12	Concentrations of Selected Radionuclides in Hanford Site Soil Samples Collected Site-Wide and Offsite, 2004 Compared to Previous Years	8.116
8.10.1	Number and Locations of Vegetation Samples Collected Near Hanford Site Facilities and Operations in 2004	8.121
8.10.2	Concentrations of Selected Radionuclides in Vegetation Samples Collected on the Hanford Site in the 100-N Area, 2004	8.123
8.10.3	Average Radionuclide Concentrations Detected in Vegetation Samples Collected on the Hanford Site in the 100-N Area, 1999 through 2004.....	8.123
8.10.4	Average Radionuclide Concentrations Detected in Vegetation Samples Collected Near Hanford Site Facilities and Operations in the 200 and 600 Areas, 1999 through 2004.....	8.124
8.10.5	Concentrations of Selected Radionuclides in Vegetation Samples Collected Near Hanford Site Facilities and Operations in the 200 and 600 Areas, 2004	8.124
8.10.6	Average Radionuclide Concentrations Detected in Vegetation Samples Collected Near Hanford Site Facilities and Operations in the 300 and 400 Areas, 1999 through 2004.....	8.124
8.10.7	Concentrations of Selected Radionuclides in Vegetation Samples Collected Near Hanford Site Facilities and Operations in the 300 and 400 Areas, 2004	8.125
8.10.8	Number of Vegetation Contamination Incidents Investigated Near Hanford Site Facilities and Operations, 2004.....	8.126
8.10.9	Annual Number of Vegetation Contamination Incidents Investigated Near Hanford Site Facilities and Operations, 1994 through 2004.....	8.126
8.10.10	Hanford Site-Wide and Offsite Vegetation Samples Collected and Analyzed, 2004.....	8.128
8.10.11	Concentrations of Selected Radionuclides in Hanford Site-Wide and Offsite Vegetation Samples, 2004 Compared to Previous Years	8.129
8.11.1	Total Number of Bucks and Number of Bucks Showing Signs of Antler Abnormality Observed in Roadside Surveys from 1994 through 2004	8.139
8.11.2	Mussels and Freshwater Snails Observed in the Hanford Reach of the Columbia River in 2003 and 2004.....	8.140

8.11.3	Amphibian Species Observed in Pools Along the Shoreline of the Hanford Reach of the Columbia River in 2004	8.141
8.11.4	Capture Ratios for Small Mammals by Season and Community Type	8.142
8.11.5	Site-Wide and Offsite Fish, Wildlife, and Aquatic Sentinel Sampling Locations and Analyses, 2004.....	8.146
8.11.6	Trace Metals and Radionuclides in Asiatic Clams, Hanford Reach Samples Compared to Reference Area Samples Collected Upstream of the Vernita Bridge, 2004.....	8.155
8.11.7	Comparison of Chromium Levels in Clam Tissue, Spring Water, and Riverbank Spring Sediment Samples Collected Along the Benton County Shoreline of the Hanford Reach.....	8.156
8.11.8	Number of Wildlife or Wildlife-Related Contamination Incidents Investigated Near Hanford Site Facilities and Operations, 2004	8.158
8.11.9	Annual Number of Wildlife or Wildlife-Related Contamination Incidents Investigated Near Hanford Site Facilities and Operations, 1994 through 2004	8.159
8.12.1	Federal or Washington State Threatened and Endangered Species that Occur or Potentially Occur on the Hanford Site	8.162
8.12.2	Washington State Candidate and Sensitive Animal Species Occurring or Potentially Occurring on the Hanford Site	8.163
8.12.3	Washington State Plant Species of Concern on the Hanford Site.....	8.164
8.13.1	Thermoluminescent Dosimeter Results Near Hanford Site Operations in 2003 and 2004 and Comparative Offsite Location Results for 1999 through 2004	8.166
8.13.2	Status of Outdoor Contamination Areas at Hanford, 2004.....	8.170
8.13.3	Change in Status of Outdoor Contamination Areas at Hanford, 2004.....	8.170
8.13.4	Dose Rates Measured by Thermoluminescent Dosimeters at Site-Wide Locations on the Hanford Site, 2004 Compared to Previous 5 Years	8.174
8.13.5	Dose Rates Measured by Thermoluminescent Dosimeters at Perimeter and Offsite Locations Around the Hanford Site, 2004 Compared to Previous 5 Years.....	8.174
8.13.6	Dose Rates Measured by Thermoluminescent Dosimeters Along the Shoreline of the Hanford Reach of the Columbia River, 2004 Compared to Previous 5 Years	8.175
8.13.7	Exposure Rates Measured by Pressurized Ionization Chambers at Four Locations Around the Hanford Site, 2004.....	8.177
8.13.8	Quarterly Average Exposure Rates Measured by Thermoluminescent Dosimeters at Four Locations Around the Hanford Site, 2004.....	8.178
8.14.1	Dose to the Hypothetical, Maximally Exposed Individual Residing at Sagemoor from 2004 Hanford Site Operations	8.182
8.14.2	Collective Dose to the Population from 2004 Hanford Site Operations.....	8.183
8.14.3	Comparison of 2004 Doses to the Public from Hanford Site Effluent and Emissions to Federal Standards and Natural Background Levels.....	8.184

8.14.4	Inhalation Doses On and Around the Hanford Site Based on 2004 Average Air Monitoring Data	8.187
8.14.5	Results of Using the RESRAD-BIOTA Computer Code to Estimate Radiological Doses to Biota On and Around the Hanford Site, 2004	8.189
8.14.6	Estimated Risk from Various Activities and Exposure	8.190
8.14.7	Activities Comparable in Risk to the 0.014-mrem Dose Calculated for the Hanford Site's 2004 Maximally Exposed Individual	8.190
8.15.1	Major Cultural Resources Reviews Conducted by Pacific Northwest National Laboratory in 2004	8.193
8.16.1	Monthly and Annual Climatological Data for 2004 from the Hanford Meteorology Station.....	8.202
8.18.1	Summary of Field Replicate Results for the Surface Environmental Surveillance Project at Hanford, 2004.....	8.206
8.18.2	Summary of Laboratory Performance on NSI Laboratory Proficiency Test Program Samples, 2004	8.207
8.18.3	Summary of Laboratory Performance on Hanford Site Surface Environmental Surveillance Project Samples by the DOE Quality Assessment Program, 2004	8.208
8.18.4	Summary of Laboratory Performance on Hanford Site Surface Environmental Surveillance Project Samples by the Environmental Resource Associates Proficiency Testing Program, 2004.....	8.208
8.18.5	Summary of Hanford Site Surface Environmental Surveillance Project Blind Spiked Determinations, 2004.....	8.209
8.18.6	Comparison of Co-Sampling Results for Samples Collected Near the Hanford Site, 2004.....	8.211
8.18.7	Comparison of Pacific Northwest National Laboratory Thermoluminescent Dosimeter Results with Known Exposure, 2004	8.212
8.18.8	Hanford Site Laboratories Used by Site Contractors and Types of Effluent Monitoring and Near-Facility Monitoring Samples Analyzed, 2004	8.213
8.18.9	The Hanford Site's Waste Sampling and Characterization Facility Performance on DOE Quality Assessment Program Samples and on DOE Mixed Analyte Performance Evaluation Program Samples, 2004	8.214
8.18.10	The Hanford Site's 222-S Analytical Laboratory Performance on DOE Quality Assessment Program Samples, 2004	8.214
8.18.11	The Hanford Site's 222-S Analytical Laboratory Performance on EPA Laboratory Water Pollution Inorganic and Organic Studies, 2004	8.214
